

One Sylvan Street

One Sylvan Street- Peabody, MA 2000

Owner: James Veliskakis
Architect: Demarco and Associates
R.C. Griffin, Inc.: Construction Manager/General contractor

Project Summary

Construct new 14,000 s.f. two story retail store

This new retail building was built on the site of an existing retail strip mall which was home to a number of businesses dating back to the turn of the century. With that history, the site had a number of environmental and geological issues to face and overcome. Through solid construction management, the new structural steel frame and EIFS facade building was built on schedule.
